

Testing of
ERITECH SI Interceptor
to
Appendix C of French Standard NFC17-102/95
and
Appendix C of Spanish Standard UNE 21186/98

This is to certify that the ERITECH SI Interceptor range, consisting of the following products, has been tested in accordance with the above standards.

- SI25 (Article Number 701535)
- SI40 (Article Number 701536)
- SI60 (Article Number 701537)

A test report detailing the test results is available on request. This report details the results of the testing as per the requirements laid out in Appendix C of Spanish standard UNE 21186/98. It should be noted that these requirements are identical to those outlined in Appendix C of French Standard NFC17-102/95 and thus this report is evidence that the above products have passed the requirements of NFC17-102/95 also.
